Online study options for facilities management qualifications

BIFM[®]
DIRECT

Develop your FM employees with a flexible online solution allowing complete flexibility for your staff to achieve a level 2, 3 or 4 qualification in facilities management. The online learning platform can be branded* with your corporate colours & logo providing a seamless learning and development environment to your employees.

How does it work?

Staff can study at their own pace, in their own time, suiting their individual needs. The online learning platform can be accessed from anywhere, on any device where there is an internet connection.

You can upload policies and documents onto the online learning platform to support learners. You can choose to have learner assessments assessed by your staff or BIFM appointed assessors.

The e-Learning platform provides a range of learning support materials to learners; this includes video presentations, regular webinar tutorials and contact with BIFM Assessors.

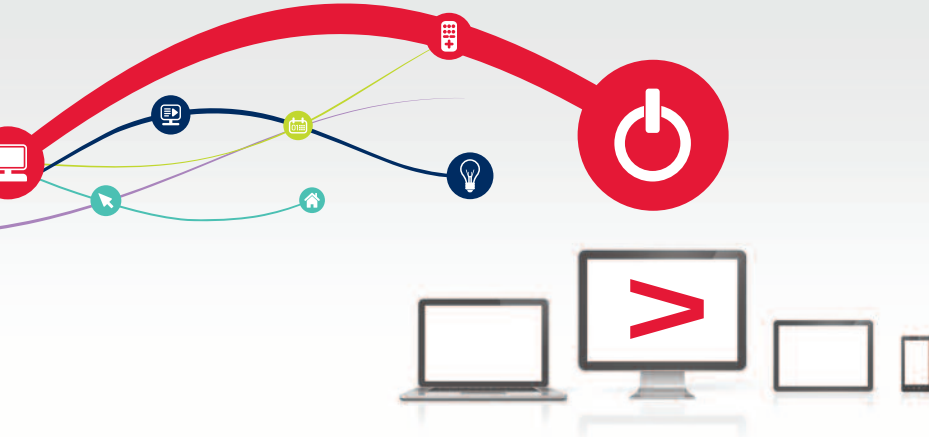

BIFM is dedicated to supporting FM professionals and employers develop core FM skills and competencies, talk to us about how BIFM can support your staff development initiatives.

ADVANCING OUR PROFESSION

About BIFM

The British Institute of Facilities Management (BIFM) is the professional body for facilities management (FM). Founded in 1993, we promote excellence in facilities management for the benefit of practitioners, the economy and society. Supporting and representing over 17,000 members around the world, both individual FM professionals and organisations, and thousands more through qualifications and training. We promote and embed professional standards in facilities management. Committed to advancing the facilities management profession we provide a suite of membership, qualifications, training and networking services designed to support facilities management practitioners in performing to the best of their ability.
